RELAXATION AND STRESS RELIEF CD BY TED HEATH

- > Discover a wonderful feeling of pure relaxation.
- > Within that relaxation:
- > Produce positive thoughts
- > Remove fears and anxieties
- > Gain a heightened awareness of your own mind and its power
- > Use the power of your mind to alleviate stress Recognise the power of your mind to overcome adversity Awake refreshed and alert.

R.T. (Ted) Heath, Cert. Ed., R.Hyp., R.Chi.C.

Ted Heath is a registered Hypnotist and Chinosis coach, based on the East Coast of Norfolk.

During his careers in Industry and in Education hypnosis has held a fascination for him. As a Lecturer and also as a former Athletics coach to college and club runners and to an international athlete he is well aware of the power of the mind in assisting individuals to attain goals which were perhaps beyond their expectations. Ted has immediate empathy with all his clients and uses the skills developed over many years to work individually with them, helping them to set and attain goals. He has been working with and helping MS clients with great success, and has an understanding of the difficult challenges that face people with MS and their families. Jonathan Chase, Programme Director of The Academy of Hypnotic Arts and himself described as "Britain's Leading Hypnotist" (Mail on Sunday) and as "Master Hypnotist" (Sunday Times) sent the following unsolicited endorsement for publication on a web site, referring to Ted as: "One of the best 'natural' hypnotists I've ever had the pleasure to watch work".

HYPNOSIS FOR MS CD FROM SHARON MCKAY

This is the first specialised MS CD in the world that we are aware of.

The Positive Inspiration MS CD will help people to stay relaxed, calm and focussed, and can also help with the following:

- > Promoting your body's own natural healing force.
- > Help you to feel loved, wanted and respected.
- > Strengthen your sense of purpose and meaning on this earth.
- > Inspire you to remain positive in the face of adversity.
- > Help you to reassess your life and goals in a positive way.
- > Help you to deal with other peoples' reactions in a positive way.
- > Reinforce your sense of pride and dignity.
- > Improve your self esteem, and elevate your mood.
- > Boost your confidence and self belief.
- > Help to get rid of fear, and manage each day as it comes.
- > Improve your sense of well-being

It can also improve sleep, and sometimes help with pain. The two key drivers of human behaviour are imagination and habit. These are operated by the subconscious mind. They are much more powerful than logic and willpower. In the relaxed state we call trance, (a naturally occurring state that human beings drift in and out of during the day, such as when we get lost in a book or a film), we can tap in to these drivers, and ask them to operate new programmes and behaviours. It's the fastest way to elicit a positive change in human thinking and behaviour. Imagine how it will be to feel so much better. All you have to do is sit back and listen. The more you listen, the easier it becomes.....

M. Sharon McKay.Dip. Hyp, GHQP, Master Practitioner NLP, Motivational Coach.

Sharon's private practice Mindcoach is based in Scotland, and specialises in helping people overcome life's challenges, reduce their stress and achieve dreams.
